LOGISTICS

SERVICES

Ocean Freight

Air Cargo

Security is Paramount

- **Rapidly Deployable** and secure collection and delivery of high value cargo, anywhere in the world.
- **Secure delivery** from point of origin to destination, with in-transit visibility, safeguarding, and complete chain of custody and **chain of integrity**.
- **Experienced and trusted network** of key partners offering private aviation for air movement, **secured armored transport** for ground movement, and secure storage vaults and depositories to ensure proper storage of precious metals and high value goods.
- **Secure Escort**, Delivery, and Transaction support.
- **Mine Security** using smart technologies, drones, and AI

GLOBAL TRADE & BROKERAGE

Brokerage of Commodities Transactions

- **Transaction Brokerage** between buyers, sellers, and third-party brokers of:
 - Precious metals, minerals, gems, gold, diamonds
 - Base metals, ferrous and non-ferrous metals
- **Strong understanding of cultural dynamics** outside of the U.S.A., including business processes, cultures, customs and courtesies, leading to a faster, more efficient and trusted business transactions.
- **Relationships with buyers and sellers**, large-scale commercial and smaller scale artisanal mining companies and refineries. All parties undergo a very strict vetting process before being given trusted partner status. All parties are fully licensed, government compliant, and only work with conflict free and ethical sources of supply.
